3. **SWISS CUSTOMS (ICS) REGULATIONS ON DATA FILING /DATA QUALITY**

We have received information from the Swiss Customs that there is a considerable amount of data that is non-compliant with their instructions for ICS (Import Control System) filing. The current example of non-compliances which customs have listed out are:-

- a) Goods description – must have a valid wording (proper description)  
We have attached a list with acceptable goods description guidelines as per EU- rules.
- b) Shipper and Consignee cannot be a Freight Forwarder. If Shipper or Consignee is a Freight Forwarder, the shipment will be treated as a “consolidation” and “HAWB-data” (FHL) is required.

Swiss Customs will no longer accept non-compliant goods description and missing Shipper and Consignee’s addresses. Delivery of shipment will be delayed indefinitely till correct paperwork/amendment is provided and accepted by the custom.

Please check the attached documents – provided by Swiss Customs (in German) as well as the link to the official documentation of the European commission all in English:  
[http://ec.europa.eu/ecip/security\\_amendment/index\\_en.htm](http://ec.europa.eu/ecip/security_amendment/index_en.htm)

Please note that all custom penalty incurred for incorrect data submission and non-compliance to ICS requirement will be recharge to the Forwarder concerned.

Please ensure brief all your staff concerned /Co-loaders of this requirement.
